*All personal loans made by WebBank.*

*[1] You may receive your funds one business day following your acceptance of the loan offer, completion of all necessary verification steps and final approval. One business day funding is also dependent on your bank's transaction processing speed.*

*[2] Eligibility for personal loans up to $50,000 depends on a number of factors, including (but not limited to) your financial history, credit score, monthly income, and monthly expenses. Eligibility for personal loans is not guaranteed, and requires sufficient investor commitments to fund.*

*[3] Personal loans through Prosper have an annual percentage rate ("APR") of 8.99% to 35.99%, terms between two and five years, and an origination fee from 1% to 9.99%. For example, a three-year $10,000 personal loan with an interest rate of 16.66% and a 8.99% origination fee results in a 23.53% APR. You would receive $9,101.00 and make 36 scheduled monthly payments of $354.84. A five-year $10,000 personal loan with an interest rate of 18.73% and a 8.99% origination fee results in a 23.26% APR. You would receive $9,101.00 and make 60 scheduled monthly payments of $257.92. Whether you are eligible for a specific APR or loan term will depend on a number of factors, including (but not limited to) your current credit rating and information you provide in your application. The lowest rates are for the most creditworthy applicants. Your actual rate may differ.*

*[4] Your monthly payment amount may be different in the final month of your loan.*
